PROFESSIONAL SUMMARY

Frontend Developer with over 4 years of experience building responsive web applications using Angular, TypeScript, JavaScript, HTML5, and CSS3. Experienced in developing single-page applications, integrating REST APIs, building reusable UI components, and translating designs into responsive web experiences.

PROFESSIONAL EXPERIENCE

Frontend Developer | Freelance | 2019-2023

- Developed responsive single-page applications using JavaScript, implementing component-based architecture, routing, and state management.
- Integrated third-party REST APIs for real-time data fetching and display
- Implemented mobile-first responsive designs ensuring cross-browser compatibility .

Technical Support Specialist | ScriptDesk (Web solutions)2023–2024

- Provided technical support for users of the company’s products.
- Investigated reported issues, reproduced problems, and documented findings for resolution.

Frontend Developer | ScriptDesk (Web solutions) 2024–2026

- Developed and maintained responsive user interfaces for a movie streaming platform, ensuring seamless viewing experience across mobile and desktop devices.
- Integrated REST APIs to fetch and display dynamic content such as movies, genres, and user-specific recommendations.
- Implemented responsive layouts and reusable UI components to provide consistent experiences across devices.

PROJECT PORTFOLIO

E-Commerce Platform Frontend | [Live Preview](#) | [Source](#)

Angular, TypeScript, HTML5, CSS3, REST API

- Developed a responsive e-commerce interface with product listings and shopping cart functionality.
- Built reusable Angular components and implemented TypeScript-driven interactions for an engaging user experience.
- Integrated REST API functionality to retrieve and display product data in real time.
- Implemented responsive CSS Grid layouts optimized for mobile and desktop devices.

Movie Discovery Website | [Live Preview](#) | [Source](#)

JavaScript | HTML5 | CSS3 | REST API

- Built a responsive movie discovery web application using vanilla JavaScript, HTML5, and CSS3.
- Integrated a third-party movie REST API to retrieve and display movie data.
- Implemented movie search, filtering, and dynamic content rendering.
- Created responsive layouts optimized for mobile and desktop devices.

CORE COMPETENCIES

Frontend: HTML5, CSS3, JavaScript, TypeScript, Angular, Bootstrap, Sass

Web Development: REST APIs, SPA Development, Responsive Design, DOM Manipulation

Tools: Git, GitHub, Figma, VS Code

CMS/E-commerce: WordPress, Shopify

Methodologies: Agile/Scrum

ADDITIONAL TRAINING (Self-Taught)

Udemy / Coursera | 2024–Present
Relevant Courses:

- JavaScript & TypeScript
- Angular Framework
- Responsive Web Design
- UI/UX Principles
- Git & GitHub

Educational Background

B.Sc. Computer Information Systems | Babcock University | 2018

Relevant Courses:

- Web Development
- Software Engineering
- Data Structures and Algorithms
- Database Systems
- Object-Oriented Programming
